The Glass Castle Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. - From publisher description.

Breaking Dawn Stephenie Meyer 2008-08-02 In the explosive finale to the epic romantic saga, Bella has one final choice to make. Should she stay mortal and strengthen her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. The Non-Obvious Guide to Magical Meetings Ferguson Douglas 2020-10-20 What if having an agenda has no effect on whether you have a great meeting? What happens when you actually do the work in the meeting? What are the five common elements of every meeting that sucks, and how do you avoid them? In this guide, we tackle the myth that the most effective way to get more out of meetings is to just avoid having them or to have less of them. But meetings are integral to getting sh*t done. Meetings are the secret underappreciated weapon that businesses are using badly. And why do they use them so badly? Because no one has been taught how to make them better. Douglas and John show you how to adopt and adapt the non-obvious Meeting Mantras they developed at their company, Voltage Control. Their methods have helped companies and teams transform the perception of meetings from "going to the dentist" (ie - something you have to do but hate) into something you can't wait for - like a rock concert or great dinner.

Language of Flowers - Illustrated by Kate Greenaway 2013-04-16 In this wonderfully unusual work, Kate Greenaway provides an enchantingly illustrated glossary of 'the language of flowers'. It shares the tradition, sparked by renewed Victorian era interest in botany and exotic plants - of using flowers as a means of covert communication. A fascinating insight into a bygone era, when the gift of a Tamsy was a declaration of war, and a Garden Daisy meant 'I share your sentiments', this text is a real treasure. 'The Language of Flowers' contains eighty-two beautifully illustrated colour pages, and was originally published in 1884. Kate Greenaway (1846 - 1901), was a children's book illustrator and writer, and remains one of the most popular illustrators of all time. Edmund Evans produced her first book ('Under the Window') in 1879, which was an instant best-seller and cemented her pre-eminent position. Her charming children in quaint costumes and idyllic scenes captured the imagination of the contemporary public - and continue to delight over a century after their initial publication. The artwork is presented in conjunction with the text - both further refining and elucidating the other. Pook Press celebrates the great 'Golden Age of Illustration' in children's literature - a period of unparalleled excellence in book illustration. We publish rare and vintage Golden Age illustrated books, in high-quality colour editions, so that the

masterful artwork and story-telling can continue to delight both young and old. **Los Angeles Magazine** 2000-04 Los Angeles magazine is a regional magazine of national stature. Factfulness Hans Rosling 2018-04-03 INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." - Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." -Melinda Gates "*Factfulness* by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama *Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts.* When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening

software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.
