History of Vatican II Giuseppe Alberigo, Joseph A. Komonchak, 1995 This third volume of the History of Vatican II describes the period during which the Second Vatican Council began to assume its mature and distinct character. With the succession of Pope Paul VI to Pope John XXIII the Council had a new head. With the revisions of texts accomplished during the first intersession the council had a new agenda more in line with the desires of the majority that had emerged during the first period. With the appointment of four Moderators the Council had a new leadership. The ecumenical commitment of the Council became visible, not only in the discussion of a decree on ecumenism, but in the visit of Paul VI to the Holy Land. During the second intersession the work of the Council continued, the most important features of which were the beginnings of the liturgical reform, the revision of the major texts still to be considered or voted on, and a plan to reduce many other texts to simple sets of propositions that was designed to make it possible for the Council to end with the third period.

Church and Society Avery Cardinal Dulles, S.J., 2009-08-25 One of the leading theologians of our time, Avery Cardinal Dulles, S.J., has written and lectured on a wide range of topics across his distinguished career, and for a wide range of audiences. Integrating faith and scholarship, he has created a rich body of work that, in the words of one observer, is "both faithful to Catholic tradition and fresh in its engagement

with the contemporary world.” Here, brought together for the first time in one volume, are the talks Cardinal Dulles has given twice each year since the Laurence J. McGinley Lectures were initiated in 1988, conceived broadly as a forum on Church and society. The result is a diverse collection that reflects the breadth of his thinking and engages with many of the most important—and difficult—religious issues of our day. Organized chronologically, the lectures are often responses to timely issues, such as the relationship between religion and politics, a topic he treated in the last weeks of the presidential campaign of 1992. Other lectures take up questions surrounding human rights, faith and evolution, forgiveness, the death penalty, the doctrine of religious freedom, the population of hell, and a whole array of theological subjects, many of which intersect with culture and politics. The life of the Church is a major and welcome focus of the lectures, whether they be a reflection on Cardinal Newman or an exploration of the difficulties of interfaith dialogue. Dulles responds frequently to initiatives of the Holy See, discussing gender and priesthood in the context of church teaching, and Pope Benedict’s interpretation of Vatican II. Writing with clarity and conviction, Cardinal Dulles seeks to “render the wisdom of past ages applicable to the world in which we live.” For those seeking to share in this wisdom, this book will be a consistently rewarding guide to what it means to be Catholic—indeed, to be a person of any faith—in a world of rapid, relentless change.

True and False Reform in the Church Yves Congar, 2010-12-01 Archbishop Angelo Roncalli (later Pope John XXIII) read True and False Reform during his years as papal nuncio in France and asked, A reform of the church 'is such a thing really possible? A decade later as pope, he opened the Second Vatican Council by describing its goals in terms that reflected Congar's description of authentic reform: reform that penetrates to the heart of doctrine as a message of salvation for the whole of humanity, that retrieves the meaning of prophecy in a living church, and that is deeply rooted in history rather than superficially related to the apostolic tradition. Pope John called the council not to reform heresy or to denounce errors but to update the church's capacity to explain itself to the world and to revitalize ecclesial life in all its unique local manifestations. Congar's masterpiece fills in the blanks of what we have been missing in our reception of the council and its call to true reform. Yves Congar, OP, a French Dominican who died in 1995, was the most important ecclesiolgologist in modern times. His writings and his active participation in Vatican II had an immense influence upon the council documents. With a few other contemporaries, Congar pioneered a new style of theological research and writing that linked the great tradition of Scripture and the Fathers to contemporary pastoral questions with lucidity and passion. His key concerns were the unity of the church, lay apostolic life, and a revival of the church's theology of the Holy Spirit. He was named a cardinal by Pope John Paul II in recognition of his profound contributions to the Second Vatican Council. Pal Philibert, OP, has taught pastoral theology in the United States and abroad. He is a Dominican friar of the Southern Province. His translation of a collection of Congar's essays on the liturgy has recently been published by Liturgical Press under the title *At the Heart of Christian Worship*. His book *The Priesthood of the Faithful: Key to a living Church* (Liturgical Press, 2005) reflects the ecclesiology of Yves Congar and his Vision of the apostolic life of the faithful.

Early Italian Painting Joseph Archer Crowe, Giovanni Battista Cavalcaselle, Anna Jameson, 2023-12-28

Oscillating between the majesty of the Greco-Byzantine tradition and the modernity predicted by Giotto, Early Italian Painting addresses the first important aesthetic movement that would lead to the Renaissance, the Italian Primitives. Trying new mediums and techniques, these revolutionary artists no longer painted frescos on walls, but created the first mobile paintings on wooden panels. The faces of the figures were painted to shock the spectator in order to emphasise the divinity of the character being represented. The bright gold leafed backgrounds were used to highlight the godliness of the subject. The elegance of both line and colour were combined to reinforce specific symbolic choices. Ultimately the Early Italian artists wished to make the invisible visible. In this magnificent book, the authors emphasise the importance that the rivalry between the Sienese and Florentine schools played in the evolution of art history. The reader will discover how the sacred began to take a more human form through these forgotten masterworks, opening a discrete but definitive door through the use of anthropomorphism, a technique that would be cherished by the Renaissance.

The Resilient Church Avery Dulles, 1977 Discusses the problems and possibilities that confronted the Catholic Church as an institution in the late 1970s, dealing with such aspects of the church as mission (purpose), renewal of doctrine, social justice, changing concepts of church membership, etc.
