Neural Networks Theory Alexander I. Galushkin,2007-10-29 This book, written by a leader in neural network theory in Russia, uses mathematical methods in combination with complexity theory, nonlinear dynamics and optimization. It details more than 40 years of Soviet and Russian neural network research and presents a systematized methodology of neural networks synthesis. The theory is expansive: covering not just traditional topics such as network architecture but also neural continua in function spaces as well.

Congo Masquerade Theodore Trefon,2011-09-08 Congo Masquerade is about mismanagement, hypocrisy and powerlessness in what has proved to be one of Africa's most troublesome and volatile states. In this scathing study of catastrophic aid inefficiency, Trefon argues that whilst others have examined war and plunder in the Great Lakes region, none have yet evaluated the imported 'template format' reform package pieced together to introduce democracy and improve the well-being of ordinary Congolese. It has, the book demonstrates, been for years an almost unmitigated failure due to the ingrained political culture of corruption amongst the Congolese elite, abetted by the complicity and incompetence of international partners. Startling and provocative, Congo Masquerade offers a critical examination of why aid is not helping the Congo.

Complementarity, Catalysts, Compliance Christian M. De Vos,2020-04-23 Critically explores the International Criminal Court's evolution and the domestic effects of its interventions in three African countries.

An Anatomy of Power John A. Hall,Ralph Schroeder,2006-02-09 Michael Mann is one of the most influential sociologists of recent decades. His work has had a major impact in sociology, history, political science, international relations and other social science disciplines. His main work, *The Sources of Social Power*, of which two of three volumes have been completed, provides an all-encompassing account of the history of power from the beginnings of stratified societies to present day. Recently he has published two major works, *Fascists* and *The Dark Side of Democracy*. Yet unlike other contemporary social thinkers, Mann's work has not, until now, been systematically and critically assessed. This volume assembles a group of distinguished scholars to take stock, both of Mann's overall method and of his account of particular periods and historical cases. It also contains Mann's reply where he answers his critics and forcefully restates his position. This is a unique and provocative study for scholars and students alike.

Protestant Missionaries and Humanitarianism in the DRC Jeremy Rich,2020 A significant contribution to the history of humanitarianism, Christianity and the politics of aid in Africa.

Zerinity ANT,2017-05-17 The author has always maintained he is a conduit, and that the poetry and prose has come through him. There have been occasions when he understood the profoundness of the work after having written it. By and large, the poems took the size of the paper he had in his hand. The beauty of the flow and the simplicity of words, coupled with the depth of the concept has been to him a source of creative joy, which simply must be shared. These touch various aspects of life, spirituality, adolescence, love, character, time, and other topics like mathematics collated over the years as he evolved. This is not a book to be read through at one go. One has to pause, ponder, digest, and then move to the next. Other than the broad separation of poetry and prose, there has been no effort to slot them in by genre or chronologically. It is a kaleidoscope to be enjoyedan offering, so to say.

The Governance of Complementary Global Regimes and the Pursuit of Human Security Andrea Marrone,2016 This book offers an overview of the challenges in the emerging regime of international criminal justice as a tool of sustainable peace. It illustrates the impact of the regime on international law and international relations, focusing on the obstacles to and concerns of its governance in the context of the maintenance and restoration of international peace and security. Andrea Marrone advocates for an appropriate interaction strategy between the United Nations and the Rome Statute institutions for the sake of human security. In multiple and inter-linked country situations, the failure of strategies to prevent mass atrocity crimes have severely compromised the safety of civilians, including their individual fundamental rights. In several countries-such as Libya, Syria, Sudan, Democratic Republic of Congo, Uganda, Kenya, Central African Republic, Ivory Coast, and Mali-civilians have severely suffered the consequences of such failure.

Furthermore, the right of humanitarian intervention by the international community is now challenged and qualified by the responsibility to protect civilians in situations of mass atrocity crimes. Such an international norm represents unfinished business in global politics and is considered by many to be far from capable of preserving the rule of international law. The preservation of the rule of law requires discussions and the advocacy of global values in international relations, such as multilateralism, collective responsibility, global solidarity, and mutual accountability. Legal Words You Should Know Corey Sandler, Janice Keefe, 2009-03-18 Every day, people find themselves in legal situations. Mortgages are put in place, attorneys draw up wills, and credit cards are set up all the time. However, how many people actually understood the legal contracts they were signing? There's no excuse for being ignorant of the law when it comes to a dispute with a bank, a mortgage lender, or a lawyer. This book defines 1,000 essential words from the worlds of civil law, estates, lending, and elder affairs, such as abatement, residuary beneficiary, trust deed, variable rate mortgage, right of rescission, and more. Each word will be clearly defined, and includes a pronunciation key and an example of usage. This guide ensures you will know the law in no time!

Law School Shane Patrick Irvine J D, 2020-07-10 LAW SCHOOL, Learn to Think Like a Lawyer - Hello, my name is Shane Irvine! And I want to be your law professor. I am both the author and the narrator of this audiobook titled, Law School. Now, let me give you a hypothetical. On one hand you have a statement made in a criminal law class at Yale University. The statement is that, First degree murder is the killing of one human being by another with malice aforethought. On the other hand, you have a statement made by a drunken beachcomber on the beach who also proclaims that, First degree murder is the killing of one human being by another with malice aforethought. The statement is that, First degree murder is the killing of one human being by another with malice aforethought. Okay, which of these claims has more truth and justice in it. The statement made in Yale School of Law or the statement made by the drunken beachcomber? Obviously, the statement is the same. The information coming from Yale University can be the same as the bellowings of a drunken beachcomber. That's because the information is generic. Yes, the legal information at Yale University Law School is basically just generic information. This series of classes that I provide, cover the breadth requirement courses necessary in law school to earn a Juris Doctor degree. Nothing is watered down except maybe the latin. The information is just as difficult to comprehend in this audiobook as it is at Yale University. Upon completion of this series of coursework, you will probably have more questions than answers. Don't worry... That's common. It's the nature of the study of law to spark thought. Each person is going to have a different mind set. I present the basic information necessary for you to form the questions. It's therefore, up to you to find your own answers. After all, that's what lawyers, traditional or otherwise, do, they provide differing schools of thought, they question everything, and they resolve to explain the unexplainable. That's the basic objective of being able to think like a lawyer - To be able to create a framework for thinking and ultimately an order for applying that framework. The curriculum for Law School includes Contracts, Tort Law, and Criminal Law, Criminal Procedure, Evidence, Civil Procedure, Family Law, Property law, Constitutional Law, Corporate Law, Wills, Trusts and Probate. These are the basic courses necessary to earn a juris doctor degree. I suggest you repeatedly listen to the material over and over. I also suggest that you purchase the four-volume text of the audiobook, found on Amazon, and follow along. The combination of listening and reading along will further help hold your attention as it all sort of sinks in and you will eventually find yourself thinking like a lawyer. However, unlike having that prestigious Yale University law school diploma on the wall, hypothetically, you will have that equivalent education plus the \$150,000 you would have paid in tuition at good ole Boola, Boola.

Legal Research Stephen Elias, Susan Levinkind, 2002 This book is the perfect tool for law students, paralegals, legal assistants and anyone else who wants to find information in a real or online law library.
