Rethinking International Cooperation in Criminal Matters in the EU Gert Vermeulen, Wendy De Bondt, 2012 In the European Union, international cooperation in criminal matters has grown exponentially over the past few decades. Importantly, there are a wide variety of authorities involved therein, rendering the traditional distinction between police and judicial cooperation as outdated. Furthermore, its rapid growth exposed this policy field to inconsistencies and incoherence. Additionally, despite the wave of new legislation, important lacunae can be identified, setting important challenges for the future. The combination of these issues clarifies the title of this book: there is a pressing need to rethink international cooperation in criminal matters. In answer to a call from the European Commission, the contributors of this book have designed a comprehensive methodological framework to review the entirety of international cooperation in criminal matters, combining desktop reviews, expert consultations, Member State questionnaires, and focus group meetings in each of the Member States to obtain a comprehensive overview of the currently experienced obstacles and future policy options that are both needed and feasible. Over 150 individuals from different backgrounds contributed to the study, including academics, lawyers, policy makers, police, customs, intelligence services, prosecution, judiciary, correctional authorities, Ministries of Justice, and Home Affairs. The book provides an overview of the research findings and the recommendations formulated. These findings include, but are not limited to: (1) a helicopter view on cooperation with criminal justice finality, (2) a clear demarcation of the role of the judicial authorities, (3) a comprehensive review of refusal grounds, including proportionality and capacity concerns, (4) an assessment of gaps in the current body of instruments regulating international cooperation in criminal matters and possible remedies thereto, (5) a well-considered further development of Eurojust, and (6) ensuring EU wide effect of mere domestic actions. This book represents the first overall analysis of the entirety of international cooperation in criminal matters in the EU. As essential reading, it is an analysis that moves beyond the actors, bringing logic back, footed in reality. (Series: Institute for International Research on Criminal Policy [IRCP] - No. 42)

International Co-operation in Civil and Criminal Matters John David McClean, 2002 For over a century states have co-operated in providing evidence for use in civil trials in other countries. The growth of international crimes such as drug-trafficking, money-laundering, terrorism, and insider-trading now pose a substantial threat to the economies and stabilities of states, and governments and international organizations have been quick to expand past civil law experience into a variety of responses - both diplomatic and institutional - to the new international crimes. This new edition draws on recent international events, new legislation, and important developments under the aegis of the EC, but retains an important awareness of both civil and criminal dimensions. It will be a useful book to litigation professionals, legislators, and policy-makers.

International Co-operation in Civil and Criminal Matters David McClean, 2012-06-14 For over a century states have co-operated in providing evidence for use in civil trials in other countries. The growth of international crimes such as drug-trafficking, money-laundering, terrorism, and insider-trading now pose a substantial threat to the

economies and stability of states, and governments and international organizations have been quick to expand past experience into a variety of responses - both diplomatic and institutional - to the new international crimes. This book sets out the law applicable to co-operation between states in these areas, and investigates the relevant practice and case law. It discusses both the civil and criminal dimensions of international co-operation. The new edition incorporates the vast number of developments that have taken place since the previous edition published in 2002, including the European Union's resolve to build an area of freedom, security, and justice, and the recent major update of the Commonwealth Scheme.

Judicial Protection in Transnational Criminal Proceedings Martin Böse,Maria Bröcker,Anne Schneider,2021-10-29

This book proposes and outlines a comprehensive framework for judicial protection in transnational criminal proceedings that ensures the right to judicial review without hampering the effective functioning of international cooperation in criminal matters. It examines a broad range of potential approaches in the context of selected national criminal justice systems, and offers a comparative analysis of EU Member States and non-Member States alike. The book particularly focuses on the differences between cooperation within the EU on the one hand and cooperation with third states on the other, and on the consequences of this distinction for the scope of judicial review.

Global Crime [2 volumes] Philip L. Reichel,2019-07-08 A definitive resource for understanding such far-reaching and often interconnected crimes as cyber theft, drug trafficking, human smuggling, identity theft, wildlife poaching, and sex tourism. While many international corporations have benefited from the global economy and distribution of information, globalization has also had serious negative consequences. This important reference work offers students and general readers a critical understanding of how technology, governments, political unrest, war, and economic strife contribute to an increase in global crime. This A-Z encyclopedia covers key people, events, and organizations and includes key documents that will help readers to understand the numerous problems created by the many transnational crimes that are growing in severity and frequency around the world. Entries address perpetrators and their methods; victims; who really profits; and law enforcement responses. In addition to cyber theft and sales of weapons and narcotics, the set provides a detailed look at global crimes not typically covered, such as corruption, fraudulent medicine, illegal sports betting, organ trafficking, maritime piracy, trafficking in cultural property, and wildlife and forest crime. Although some historical events and people are included, the focus is on recent and contemporary topics.

Handbook on European data protection law Council of Europe,European Union Agency for Fundamental Rights,2018-04-15 The rapid development of information technology has exacerbated the need for robust personal data protection, the right to which is safeguarded by both European Union (EU) and Council of Europe (CoE) instruments. Safeguarding this important right entails new and significant challenges as technological advances expand the frontiers of areas such as surveillance, communication interception and data storage. This handbook is designed to familiarise legal practitioners not specialised in data protection with this emerging area of the law. It provides an overview of the EU's and the CoE's applicable legal frameworks. It also explains key case law, summarising major rulings of both the Court of Justice of the European Union and the European Court of Human

Rights. In addition, it presents hypothetical scenarios that serve as practical illustrations of the diverse issues encountered in this ever-evolving field.

State Sovereignty and International Criminal Law Morten Bergsmo, LING Yan, 2012-11-19 'State sovereignty' is often referred to as an obstacle to criminal justice for core international crimes by members of the international criminal justice movement. The exercise of State sovereignty is seen as a shield against effective implementation of such crimes. But it is sovereign States that create and become parties to international criminal law treaties and jurisdictions. They are the principal enforcers of criminal responsibility for international crimes, as reaffirmed by the complementarity principle on which the International Criminal Court (ICC) is based. Criminal justice for atrocities depends entirely on the ability of States to act. This volume revisits the relationship between State sovereignty and international criminal law along three main lines of inquiry. First, it considers the immunity of State officials from the exercise of foreign or international criminal jurisdiction. Secondly, with the closing down of the ad hoc international criminal tribunals, attention shifts to the exercise of national jurisdiction over core international crimes, making the scope of universal jurisdiction more relevant to perceptions of State sovereignty. Thirdly, could the amendments to the ICC Statute on the crime of aggression exacerbate tensions between the interests of State sovereignty and accountability? The book contains contributions by prominent international lawyers including Professor Christian Tomuschat, Judge Erkki Kourula, Judge LIU Daqun, Ambassador WANG Houli, Dr. ZHOU Lulu, Professor Claus Kre, Professor MA Chengyuan, Professor JIA Bingbing, Professor ZHU Lijiang and Mr. GUO Yang.

A Critical Introduction to International Criminal Law Carsten Stahn, 2019 Presents theories, practices and critiques alongside each other to engage students, scholars and professionals from multiple fields. This title is also available as Open Access on Cambridge Core.

Essential Texts on International and European Criminal Law Gert Vermeulen, 2010 This pocket book is comprised of the principal policy documents and multilateral legal instruments on international and European criminal law, with a special focus on Europol and Eurojust, as well as on initiatives aimed at combating international crime, organized crime, or terrorism. The sixth revised edition provides professors, students, judicial and law enforcement authorities, lawyers, and researchers with an accurate, up-to-date and low budget edition of essential texts on these matters. These texts have been ordered according to the multilateral cooperation level within which they were drawn up - either from the European Union (comprising also Schengen-related texts), the Council of Europe, or the United Nations. Within each of these four parts, they have been included in chronological order. The book comprises 34 newly added texts, including a series of newly adopted framework decisions, the new legal framework for Eurojust and Europol, the new EU Treaties, and the Stockholm Programme. Instruments amending others have been implemented for coherence and maintaining the spirit of the amendments in spite of small technical errors in the amending instruments. The amendments included in the Council Framework Decision of 26 February 2009, on trials in absentia, have been implemented in the framework decisions concerned with an indication in a footnote

as to the application date. Exceptionally, both the Convention of 26 July 1995 on the use of information technology for customs purposes (and the 2003 Protocol thereto) and the Council Decision of 30 November 2009 on the use of information technology for customs purposes have been included, because the latter will replace the current Convention and its Protocol as of 27 May 2011.
