**The Sutton Hoo Helmet** Sonja Marzinzik 2007 A warrior's face - the strong brows inlaid with red garnets, the nose and mouth gilded and its surface tinned a silvery colour - this is how the Sutton Hoo helmet once appeared to those who saw it. Beautifully crafted and visually stunning, it would have inspired awe. But it was also fully capable of protecting its wearer in battle. This book explains how it was discovered together with other priceless treasures including a ship in the great mound at Sutton Hoo, Suffolk, by the archaeologist Basil Brown in the late 1930s. He was employed by the owner of the estate, Mrs Edith Pretty, who generously donated the whole find to the British Museum. After painstaking reconstruction, experts were able to compare this very rare helmet to the few others dating to the same period, and also to speculate for whom it might have been created. Today, some 1,400 years after it was buried, it is the centrepiece for the Sutton Hoo burial exhibit in the British Museum - a remarkable testament to Anglo-Saxon power and artistic skill.

**Achtung-Panzer!** Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
