How to Make Paper

John Manos 2004 What does it take to make paper? The necessary materials and instructions are listed for making paper, along with various ways to use it.
Stitch, Fabric & Thread Elizabeth Healey 2017-01-24 Experiment with stitch, fabric and thread to create your own unique textiles. This inventive book is a treasure trove of over 40 inspiring practical exercises, a rich and creative exploration of fabric and stitch, and a fascinating all-round read. Elizabeth Healey’s approach to sewing is that it should be fun, and not like a chore or an exam we need to excel in. Her aim is to simply encourage you to pick up a needle and thread and get sewing! The exercises draw inspiration from around the world: create corded works of art inspired by Milton Glaser’s iconic Bob Dylan poster; create bold embroidered African masks; layer up and cut away to create Mola applique; use bleach and fabric paint to create Aboriginal dreamtime lizards; create knotted works of art inspired by ancient Mayan counting systems; embroider varsity cross-stitch letters or try out decorative Japanese book binding. Alternatively, try a host of other techniques such as quilting, printing, dyeing, couching tumbled crockery, creating pleats and puckers and needlelace. Packed with stitch galleries and bursting with slow sewing ideas, the book also contains ‘behind the stitches’ features: illuminating insights into sewing movements such as Boro textiles, Gee’s Bend quilting and Dorset buttones.

Thyme in a Bottle Ingrid Croce 1996-04-16 In 1985 Ingrid Croce opened Croce’s Restaurant and Jazz Bar as a tribute to her late husband, singer and songwriter Jim Croce. Attempting to recreate the warmth and energy from their early days of entertaining together, Ingrid infused Croce’s with great food, live music and an inviting, casual atmosphere. She has since parlayed the success of this unbeatable combination into a group of popular restaurants and clubs as one of the pioneers in the rejuvenated Gaslamp district of downtown San Diego. Now many of the recipes that have made her restaurants famous are available here. Current culinary trends are reflected in the seasonal American cuisine and Southwestern fare of Ingrid’s Cantina and Sidewalk Cafe in recipes such as Santa Barbara Sea Bass with Caramelized Onions and Fig, Ricotta Gnocchi with Wild Mushrooms and Sage, and Pacific Rim Tamales. Drawing on Ingrid’s multicultural background and interests, Thyme in a Bottle features Italian favorites as interpreted by the Croce family, like Roasted Pepperonra Salad and Fried Zucchini Blossoms, as well as the Russian and Jewish classics of her childhood, such as brisket and tzimmes with kasha and varnishkas. Ingrid also reveals the secrets behind her own signature blitzes and “poppers.” Interpreted with the recipes is Ingrid’s own inspired story. She writes openly about her intense romance with Jim Croce, their happy but occasionally troubled marriage. She tells of the difficult repercussions of Jim’s early death, from battles with the music industry to rearing a young son on her own. And she shares the challenges of starting a restaurant and becoming a real player in a notoriously competitive business. It is all told with such candor, warmth, and enthusiasm that by the time Ingrid concludes her story with personal and professional triumphs, we are cheering the heartening success of such a vibrant spirit. Fans of the late Jim Croce will delight in this collection of recipes and memoirs by his wife, Ingrid. Ingrid’s inspiration comes from memories if the exceptional food and music that her and Jim created in their Pennsylvania farmhouse in the late sixties and early seventies. As proprietor of five award-winning San Diego restaurants and clubs, Ingrid has garnered an enviable reputation in the culinary world. In Thyme in a Bottle she serves up the delicious recipes that make her restaurant so successful as well as anecdotes about her life and times. With its wonderful diversity of menus—from traditional Italian and Russian favorites to contemporary American and Southwestern cuisine—this warm and engaging cookbook is an excellent addition to any cook’s library.

Star Destroyers Tony Daniel 2018-03-06 BIG SHIPS BLOWING THINGS UP GO BIG OR GO HOME! Boomers. Ships of the Line. Star Destroyers. The bigger the ship, the better the bang. From the dawn of history onward, commanding the most powerful ship around has been a dream of admirals, sultans, emperors, kings, generalissimos, and sea captains everywhere. For what the intimidation factor alone doesn’t achieve, a massive barrage from super-weapons probably will. Thus it was, and ever shall be, even into the distant future. From the oceans of Earth, to beneath the ice of Europa, to the distant reaches of galactic empires, it is the great warships and their crews that sometimes keep civilization safe for the rest of us—but sometimes become an extinction-level event in and of themselves. In “Superweapon” by David Drake, a fight for possession of an ancient alien warship will determine the fate of two vast interstellar powers. Then in “Hate in the Darkness” by Michael Z. Williamson, a team of libertarian Freeholders must think outside the box to do battle with the might of the United Nations and its powerful navy. And in “A Helping Hand,” Jody Lynn Nye posits an interstellar submarine on a rescue mission behind enemy lines—with the fate of an entire species hanging in the balance. Big, bold, and edge-of-your-seat space opera and military science fiction from David Drake, Sharon Lee & Steve Miller, Michael Z. Williamson, Steve White, Robert Buettner, Susan R. Matthews, Dave Bara, and many more! Contributors: David Drake Michael Z. Williamson Mark L. Van Name Steve White Jody Lynn Nye Brendan DuBois Sharon Lee & Steve Miller Susan R. Finding Voice Kim Berman 2017-12-22 In Finding Voice, Kim Berman demonstrates how she was able to use visual arts training in disenfranchised communities as a tool for political and social transformation in South Africa. Using her own fieldwork as a case study, Berman shows how hands-on work in the arts with learners of all ages and backgrounds can contribute to economic stability by developing new skills, as well as enhancing public health and gender justice within communities. Berman’s work, and the community artwork her book documents, present the visual arts as a crucial channel for citizens to find their individual voices and to become agents for change in the arenas of human rights and democracy.

Cosmic Corsairs Hank Davis 2020-08-04 NEW FICTION AND CLASSICS OF THE GENRE COLLECTED BY THE EDITORIAL TEAM BEHIND SPACE PIONEERS AND OVERRULED! SPACE PIRATES! Words that conjure up rousing tales of adventure, derring-do, brave heroes battling the scurvy vermin of the galaxy. Those vermin have taken to pillaging cargo ships and, even worse, space liners, relieving the helpless passengers of their valuables, and worse with the comely women passengers, then spacing the lot—unless one or more of the aforementioned brave heroes arrive in the nick of time, and turn the tables, making the spaceways safe again for the innocent and helpless. On the other hand, perhaps the pirate captain is a woman, and it’s the comely male passengers who need rescuing. And on the third hand (we’re talking space pirates here, possibly aliens with four or more arms), perhaps those ships traversing the interstellar void are not so innocent, and the pirates, fighting an evil despotic star empire and defending the freedom of the space lanes, are the good guys and gals. The possibilities are many, and the daring exploits set the blood racing in the veins of any reader with even a trace of buccaneering spirit in their hidden self. So board a battered but spaceworthy fighting starship with such star-spanning and award-winning crewmates as Robert Silverberg, Elizabeth Bear and Sarah Monette, Larry Niven, Fritz Leiber, and Sarah A. Hoyt, plus James H. Schmitz, James Blish, Gregory Benford, and more, and set sail—er, thrusters—for a universe of freebooting adventure! At the publisher’s request, this title is sold without DRM (Digital Rights Management). Praise for previous anthologies edited by Hank Davis: In Space No One Can Hear You Scream: “[T]he 13 tales in this collection blend sf with horror to demonstrate the resiliency of both genres. . . . offers strong tales by the genre’s best storytellers.” —Library Journal “[F]irst-rate science fiction, demonstrating how short stories can still entertain.” —The Galveston County Daily NewsM A Cosmic Christmas 2 You: “This creative and sprightly Christmas science fiction anthology spins in some surprising directions. . . . A satisfying read for cold winter evenings. . . . a great stocking stuffer for SF fans.” —Publishers Weekly As Time Goes By: “As Time Goes By. . . . does an excellent job of exploring not only romance through time travel—relationships enabled or imperiled by voyaging through time—but the intrinsic romance of time travel itself. . . . The range of styles and approaches is as wide as the authors’ sensibilities and periods might suggest. . . . full of entertaining and poignant stories. . . .” —Alvaro Zinos-Amaro, IntergalacticMedicineShow.com About Star Destroyers, coedited by Christopher Ruocchio: “[S]pectacular space battles and alien contacts. . . . themes of military ethics, the uses of artificial intelligence, and the limits of the capacity of the human mind. . . . It is the human interactions and decisions that ultimately drive the stories. . . . Will appeal to fans of military and hard science fiction and any readers fascinated by the possibilities of space travel.”—Booklist “[S]tories of giant spaceships at war, at peace, and in the often-gray areas between. . . . A worthy addition to a long tradition of ship-based fiction, and its authors portray captains, arcane astrogators, and civilian child passengers with equal depth. It’s recommended for fans of military SF and space adventure.”—Publishers Weekly “[Y]ou’d probably expect some tight, action-filled space opera stories of giant space battles. . . . and there’s some of that. But there are also espionage stories, rescue missions, political conflicts, alternate histories, even a few humorous tales. . . . Each author took the premise in a different direction. . . . if I had to identify one common feature to all the stories, it would be that they’re all fun. . . . Like it says, big ships blowing things up. What’s not to like?”—Analog

Composite Solutions for Ballistics Yasir Nawab 2021-08-05 Academic researchers who are working on the development of composite materials for ballistic protection need a deeper understanding on the theory of material behavior during ballistic impact. Those working in industry also need to select proper composite constituents, to achieve their desired characteristics to make functional products. Composite Solutions for Ballistics covers the different aspects of ballistic protection, its different levels and the materials and structures used for this purpose. The emphasis in the book is on the application and use of composite materials for ballistic protection. The chapters provide detailed information on the various types of impact events and the complexity of materials to respond to those events. The characteristics of ballistic composites and modelling and simulation results will enable the reader to better understand impact mechanisms according to the theory of dynamic material behavior. A complete description of testing conditions is also given that includes sensors and high-speed devices to monitor ballistic events. The book includes detailed approaches and schemes that can be implemented in academic research into solutions for ballistic protection in both theoretical and experimental fields, to find solutions for existing and next generation threats. The book will be an essential reference resource for materials scientists and engineers, and academic and industrial researchers working in composite materials and textiles for ballistic protection, as well as postgraduate students on materials science, textiles and mechanical engineering courses. Discusses the fundamentals of impact response mechanisms and related solutions covering advantages and disadvantages for both existing and next generation applications Includes various methods for evaluation of ballistic constituents according to economic and environmental criteria, types of green ballistics are considered to enhance sustainable production of applications as well as hybrid composites from natural wastes Discusses selection methodologies for ballistic applications and detailed information on the use of textiles for reinforcement fabrication

Recycling and Deinking of Recovered Paper Pratima Bajpai 2013-11-21 Paper recycling in an increasingly environmentally conscious world is gaining importance. Increased recycling activities are being driven by robust overseas markets as well as domestic demand. Recycled fibers play a very important role today in the global paper industry as a substitute for virgin pulps. Paper recovery rates continue to increase year after year Recycling technologies have been improved in recent years by advances in pulping, flotation deinking and cleaning/screening, resulting in the quality of paper made from secondary fibres approaching that of virgin paper. The process is a lot more eco-friendly than the virgin-papermaking process, using less energy and natural resources, produce less solid waste and fewer atmospheric emissions, and helps to preserve natural resources and landfill space. Currently more than half of the paper is produced from recovered papers. Most of them are used to produce brown grades paper and board but for the last two decades, there is a substantial increase in the use of recovered papers to produce, through deinking, white grades such as newsprint, tissue, market pulp. By using recycled paper, companies can take a significant step toward reducing their overall environmental impacts. This study deals with the scientific and technical advances in recycling and deinking including new developments. Covers in great depth all the aspects of recycling technologies Covers the latest science and technology in recycling Provides up-to-date, authoritative information and cites many mills experiences and pertinent research Includes the use of biotech methods for deinking, refining, and improving drainage

Questions of Travel Elizabeth Bishop 2015-01-13 The publication of this book is a literary event. It is Miss Bishop’s first volume of verse since Poems, which was awarded the Pulitzer Prize for Poetry in 1955. This new collection consists of two parts. Under the general heading "Brazil" are grouped eleven poems including "Manuelzinho," "The Armadillo," "Twelfth Morning, or What You Will," "The Riverman," "Brazil, January 1, 1502" and the title poem. The second section, entitled "Elsewhere," includes others "First Death in Nova Scotia," "Manners," "Sandpiper," "From Trollope’s Journal," and "Visits to St. Elizabeths." In addition to the poems there is an extraordinary story of a Nova Scotia childhood, "In the Village." Robert Lowell has recently written, "I am sure no living poet is as curious and observant as Miss Bishop. What cuts so deep is that each poem is inspired by her own tone, a tone of large, grave tenderness and sorrowing amusement. She is too sure of herself for empty mastery and breezy plagiarism, too interested for confession and musical monotony, too powerful for mismanaged fire, and too civilized for idiosyncratic incoherence. She has a humorous, commanding genius for picking up the unnoticed, now making something sprightly and right, and now a great monument. Once her poems, each shining, were too few. Now they are many. When we read her, we enter the classical serenity of a new country."

Time Troopers Hank Davis 2022-04-05 NEW AND CLASSIC STORIES OF TIME TRAVEL MILITARY SF BATTLEZONE: ETERNITY Once, military actions were entirely two dimensional, confined to the surface of land and sea, but then submarines and aircraft added a third dimension, vastly extended by spaceflight. Now, consider that if time travel is possible, the fourth dimension of time opens up new possibilities for combat, necessitating new defenses, new strategies and tactics. A battle that was once decisively won might be refought, or a narrow victory might be subtly tilted to the other side. Never mind the history books, they’re only works in progress. There might be even more than four dimensions involved, if parallel universes and alternate realities exist and can be accessed. Imagine a universe where Rome never fell and its troops want to do something about our universe, where it did fall. Or another where more recent wars turned out very differently. Battle is a recurrent motif in the Earth of this universe, and would alternate realities be different or all too similar, with the tune the same, but different lyrics. Supplying the lyrics for spacetime combat in these pages is an all-star general staff including Robert Silverberg, Poul Anderson, Fritz Leiber, John C. Wright, H. Beam Piper and more. It’s zero hour, in whatever time stream, so grab your time-appropriate weapon, be it sword or ray blaster, buckle on to your general issue timeporter belt, and follow the Time Troopers into action across strange aeons! At the publisher’s request, this title is sold without DRM (Digital Rights Management).
