The Man Next Door Emerson Hough, 2020-09-28 Bonnie Bell was her real name—Bonnie Bell Wright. It sounds like a race horse or a yacht, but she was a girl. Like enough that name don't suit you exactly for a girl, but it suited her pa, Old Man Wright. I don't know as she ever was baptized by that name, or maybe baptized at all, for water was scarce in Wyoming; but it never would of been healthy to complain about that name before Old Man Wright or me, Curly. As far as that goes, she had other names too. Her ma called her Mary Isabel Wright; but her pa got to calling her Bonnie Bell some day when she was little, and it stuck, especial after her ma died. That was when Bonnie Bell was only four years old, that her ma died, and her dying made a lot of difference on the ranch. I reckon Old Man Wright probably stole Bonnie Bell's ma somewhere back in the States when he was a young man. She must of loved him some or she wouldn't of came to Wyoming with him. She was tallish, and prettier than any picture in colors—and game! She tried all her life to let on she liked the range, but she never was made for it. Now to see her throw that bluff and get away with it with Old Man Wright—and no one else, especial me—and to see Old Man Wright worrying, trying to figure out what was wrong, and not being able to—that was the hardest thing any of us ever tried. The way he worked to make the ma of Bonnie Bell happy was plain for anybody to see. He'd stand and look at the place where he seen her go by last, and forget he had a rope in his hand and his horse a-waiting. We had to set at the table, all three of us, after she died—him and the kid and me—and nobody at the end of the table where she used to set—her always in clothes that wasn't just like ours. I couldn't hardly stand it. But that was how game Old Man Wright was. He wasn't really old. Like when he was younger, he was tall and straight, and had sandy hair and blue eyes, and weighed round a hundred and eighty, lean. Everybody on the range always had knew Old Man Wright. He was captain of the round-up when he was twenty and president of the cattle association as soon as it was begun. I don't know as a better cowman ever was in Wyoming. He grew up at it.

Syntactic Theory Robert Borsley, 2014-04-23 Syntactic theory is central to the study of language. This innovative book introduces the ideas which underlie most approaches to syntax and shows how they have been developed within two broad frameworks: principles and parameters theory and phrase structure grammar. While other texts either concentrate on one theory or treat them as totally separate, here both approaches are introduced together, highlighting the similarities as well as the differences. Thoroughly updated in the light of major recent developments, this second edition includes expanded explanations of the main characteristics of the two theories, summaries of the main features, exercises reinforcing key points and suggestions for further investigation.

Dead Man's Watch Kay DiBianca, 2020-09-21 SAVING ONE LIFE IS LIKE SAVING THE WHOLE WORLD Half-sisters Kathryn Frasier and Cece Goldman stumble into another mystery in this second book in the Watch series. When a former acquaintance of Kathryn's is accused of murder, she and Cece go on a mission to prove his innocence by finding the real killer. But things are never what they seem in this tangled web, and Kathryn's

spunky determination to solve the mystery pushes her closer and closer to a deadly climax.

One Story Inside Another Victor Gordon Cullen, 2014-04-10 The existence of Gulls is unquestionable; that they exist in the way portrayed in this book is for you to decide. The existence of off shore oil rigs is also unquestionable, and their becoming Spike Moulds Standing Upright in the Bright Mother Sea enhances rather than subtracts from their designed purpose. The wonders emerging from the Ocean of Energy are for you alone to investigate; they exist for your looking and laughing. The Ocean of Energy, like its much smaller water-filled sisters, is in constant motion with an inherent efficiency of the highest magnitude possible. What once was is recycled, and from this recycling, things are made anew, for what is important is never wasted. Appreciation of such wonders is, of course, an individual calling, and sadly, there are many amongst us today who seem convinced they actually own what the Ocean of Energy has freely created. The myriad of habitats created as havens for the life forms that followed the Beginning is a wonder greater than all else. The needs essential for daily survival were built unreservedly into the system so that they could be used freely whenever required. The record being left behind by my own species proves the system can be misused and abused. This misuse and abuse, so far as understood, seems to be tolerated because it is made from energy that has no inherent intelligence of its own. Come now, let Thag-Sea-Wolf and Humber-Current-Holly guide you through their remarkable journey while Harry Lloyd, living in a reality closely linked to Gulldom, guides you through his own story and the story of the oil industry.

Dickens and Victorian Psychology Tyson Stoltz, 2022-08-11 Dickens and Victorian Psychology: Introspection, First-Person Narration, and the Mind positions Charles Dickens's fiction in the midst of Victorian psychological debate, tracking Dickens's increasing reliance over the course of his career on the introspective mode, those moments--from free indirect discourse to first-person narration--in which Dickens attempts to represent the inner view of his characters' minds. In the middle of the nineteenth century, introspection remained the central investigative method for dualist psychologies, theories that tied the mind's immortality to its immateriality. Because those psychologies found evidence of the mind's ontological difference from the body in the subjective experience of consciousness, this book argues that the moments of inwardness in Dickens's fiction, in both their form and their content, constitute efforts to resist the encroachment of psycho-physiology by making a case for the mind's transcendence of the body. Yet Dickens and Victorian Psychology also shows the consequences of a material psychology's appropriation of such an inward view--as well as the results of the efforts by psycho-physiologists to redefine the terminology of a mainstream dualism--by tracing the ambiguities and contradictions that find their way into Dickens's representations of the mind. In these ways, this book reveals an overlooked context for Dickens's experiments with narrative point of view and broadens our understanding of the strategies that a material psychology used to assuage the anxieties of those who saw psycho-physiology as a threat to immortality.

The Man Next Door Ellen James, 2011-07-15 Ellen James writes with warmth, wit and style. I look forward to each new book.—Debbie Macomber Michael Turner is the man next door and he's got problems! He's an ex-cop turned P.I., who's pretending to be a writer. His partner—normally the most rational of women—is pretending she's pregnant. His eleven-year-old son—whom he loves—isn't pretending anything, but then, the boy's barely talking to him. His father—whom he loathes (no pretense here)—is back in town. And to top it all, he's becoming dangerously attracted to the woman next door, a woman he's been paid investigate, a woman who just might be pretending that she hasn't murdered her husband.

Anna Katharine Green (1846-1935) was an American poet and novelist. Green has been called the mother of the detective novel. Her main character was detective Ebenezer Gryce of the New York Metropolitan Police Force, but in three novels he is assisted by the nosy society spinster Amelia Butterworth, the prototype for Miss Marple. She also invented the 'girl detective': in the character of Violet Strange, a debutante with a secret life as a sleuth. Indeed, as journalist Kathy Hickman writes, Green stamped the mystery genre with the distinctive features that would influence writers from Agatha Christie and Conan Doyle to contemporary authors of suspenseful whodunits. She was one of the first writers of detective fiction in America and distinguished herself by writing well plotted, legally accurate stories.

'Membering Austin Clarke Paul Barrett,2020-11-24 'Membering Austin Clarke reflects on the life and writing of Austin Clarke, whose depictions of Black life in Canada enlarged our understanding of what Canadian literature looks like. Despite being one of Canada's most widely published, and most richly awarded writers, Austin Clarke (1934–2016) is not a household name. This collection addresses Clarke's marginalization in Canadian literature by demonstrating that his writing on Black diasporic life and the immigrant experience is a foundational, if untold, part of the story of CanLit. Novelist, short-story writer, poet, and essayist, Clarke was born in Barbados, moved to Canada in 1955 and went on to establish Black Studies programs at a number of universities in America. He returned to Canada and became one of Canadian literature's most prolific authors and a public voice for Black people in Canada. Among his best-known works are the Giller Award-winning *The Polished Hoe* (2002) and his memoir *'Membering* (2015). This collection of essays from colleagues, scholars, friends, and fellow writers addresses Clarke's work in all its richness and complexity in order to understand how Clarke's legacy continues to transform Canadian writing. It includes previously unpublished poems and short stories from Clarke's archives as well as personal reflections from friends, histories of the publication of his works, essays, interviews, and short stories and poems inspired by Clarke.

Keith Booker, 2010-05-11 The most comprehensive reference ever compiled about the rich and enduring genre of comic books and graphic novels, from their emergence in the 1930s to their late-century breakout into the mainstream. At a time when graphic novels have expanded beyond their fan cults to become mainstream bestsellers and sources for Hollywood entertainment, Encyclopedia of Comic Books and Graphic Novels serves as an exhaustive exploration of the genre's history, its landmark creators and creations, and its profound influence on American life and culture. Encyclopedia of Comic Books and Graphic Novels focuses on English-language comics—plus a small selection of influential Japanese and European works available in English—with special emphasis on the new graphic novel format that emerged in the 1970s. Entries cover influential comic artists and writers such as Will Eisner, Alan Moore, and Grant Morrison, major genres and themes, and specific characters, comic book imprints, and landmark titles, including the pulp noir 100 Bullets, the post-apocalyptic Y: The Last Man, the revisionist superhero drama, Identity Crisis, and more. Key franchises such as Superman and Batman are the center of a constellation of related entries that include graphic novels and other imprints featuring the same characters or material.
