Battletech Technical Readout 3085 Catalyst Game
Labs,2010-10-13 In December 3076, Devlin Stone marshaled the nations of the Inner Sphere and began Operation SCOUR. The two-year final push to Terra was the bloodiest fighting seen in centuries. In the end, Terra had been freed with the Word of Blake scattered to the darkest corners of the universe. Stepping into that

vacuum, Stone forged a new Terran Hegemony in The Republic of the Sphere. With the end of the Jihad, the survivors are rebuilding their shattered armies, introducing new machines to replace those whose factories ceased to exist in the fires of the Jihad. BattleTech Technical Readout: 3085 gives a detailed look at the machines introduced during the waning days of the Jihad and into the founding days of Devlin Stones Republic of the Sphere. This book includes the latest Mechs, battle armor, aerospace and vehicles as well as new late-Jihad support vehicles. In addition, this sourcebook heralds the long-awaited update of Technical Readout: Project Phoenix, featuring brand-new art and additional variants. Conventional infantry make their Technical Readout debut with fifty-six individual infantry formations from classic foot infantry to xeno-planetary soldiers. And finally, after more than twenty years of silence, Land-Air BattleMechs explode back into a Technical Readout with a look at the original four LAMs and their Star League history.

Fakes!? Marco Beretta, Maria Conforti, 2014

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways - robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after

his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Flowers from Hell Nikolas Schreck, 2001 Unholy creations from the world's greatest authors and artists are bound together in this essential illustrated anthology of Luciferian literature. Charting the progress of the Prince of Darkness via the short stories, novels and poetry of centuries past, this Satanic sampler summons forth the Devil in a fascinating array of guises Authors and artists include: Charles Baudelaire, Aleister Crowley, Dante Alighieri, Goethe, J-K Huysmans, Matthew G Lewis, Charles Maturin, Mark Twain, Washington Irving, Christopher Marlowe, John Milton, Edgar Allan Poe, Felicien Rops, Francisco Goya, Jean Delville, Gustave Dore, Franz Von Stuck, Albrecht Durer

The Commune Louise Michel,Mikhail Bakunin,Voltairine de Cleyre,Alexander Berkman,Maurice Brinton,2013-04-02 On 18 March 1871, the Parisian working class began a rebellion that shook the foundations of European society. Laborers seized direct control over their city, expelling their government and capitalist rulers. These revolutionary men and women declared Paris an independent municipality and commune where they would collectively manage their society through new institutions of their own creation, providing for their own welfare and defense. The Commune was annihilated 71 days later in one of the deadliest campaigns in French military history, La Semaine Sanglante, The Bloody Week, during which over 30,000 men, women, and children were murdered for their revolutionary aspirations. Despite the brutality of its destruction, the Paris Commune uprising inspired revolutionaries the world over. In the near century-and-a-half that has passed since the Commune's destruction, anarchists and libertarian-socialists across the generations have looked to the 1871 Paris Commune, seeking to learn from its example--both its strengths and its limitations. The Commune: Paris, 1871, is a new

collection of writings and critical reflections on the Paris Commune by classic anarchist and libertarian-socialist authors like Louise Michel, William Morris, Mikhail Bakunin, Peter Kropotkin, Voltairine de Cleyre, Alexander Berkman and Maurice Brinton.
