Matterhorn Karl Marlantes,2010-04-01 Intense, powerful, and compelling, Matterhorn is an epic war novel in the tradition of Norman Mailer's *The Naked and the Dead* and James Jones's *The Thin Red Line*. It is the timeless story of a young Marine lieutenant, Waino Mellas, and his comrades in Bravo Company, who are dropped into the mountain jungle of Vietnam as boys and forced to fight their way into manhood. Standing in their way are not merely the North Vietnamese but also monsoon rain and mud, leeches and tigers, disease and malnutrition. Almost as daunting, it turns out, are the obstacles they discover between each other: racial tension, competing ambitions, and duplicitous superior officers. But when the company finds itself surrounded and outnumbered by a massive enemy regiment, the Marines are thrust into the raw and all-consuming terror of combat. The experience will change them forever. Written by a highly decorated Marine veteran over the course of thirty years, Matterhorn is a spellbinding and unforgettable novel that brings to life an entire world—both its horrors and its thrills—and seems destined to become a classic of combat literature.

Fifty Words for Rain Asha Lemmie,2021-06-08 A Good Morning America Book Club Pick and New York Times Bestseller! From debut author Asha Lemmie, “a lovely, heartrending story about love and loss, prejudice and pain, and the sometimes dangerous, always durable ties that link a family together.” —Kristin Hannah, #1 New York Times–bestselling author of *The Nightingale* Kyoto, Japan, 1948. “Do not question. Do not fight. Do not resist.” Such is eight-year-old Noriko “Nori” Kamiza’s first lesson. She will not question why her mother abandoned her with only these final words. She will not fight her confinement to the attic of her grandparents’ imperial estate. And she will not resist the scalding chemical baths she receives daily to lighten her skin. The child of a married Japanese aristocrat and her African American GI lover, Nori is an outsider from birth. Her grandparents take her in, only to conceal her, fearful of a stain on the royal pedigree that they are desperate to uphold in a changing Japan. Obedient to a fault, Nori accepts her solitary life, despite her natural intellect and curiosity. But when chance brings her older half-brother, Akira, to the estate that is his inheritance and destiny, Nori finds in him an unlikely ally with whom she forms a powerful bond—a bond their formidable grandparents cannot allow and that will irrevocably change the lives they were always meant to lead. Because now that Nori has glimpsed a world in which perhaps there is a place for her after all, she is ready to fight to be a part of it—a battle that just might cost her everything. Spanning decades and continents, *Fifty Words for Rain* is a dazzling epic about the ties that bind, the ties that give you strength, and what it means to be free.

The Mountains of My Life Walter Bonatti,2001 The legendary mountaineer describes his adventures in such ranges as the Alps and Himalayas, and provides details of what really happened during a controversial 1954 Italian expedition that made the first ascent of K2.

In High Places Dougal Haston,2013-02-04 In his own words Dougal Haston covers the years from his childhood in Scotland, where his love of climbing was first sparked, through to his development into perhaps the most formidable climber of his generation; his reputation was forged by his successful ascents of familiar peaks by unfamiliar routes (of which the most famous was the Eiger Direct). Infused throughout with his passion for climbing and his great determination to succeed, *In High Places* is a compelling and eye-opening portrait of the climber as a young man and a must read for all those with an interest in mountaineering.

Mountains Stefan Dech,2016-11-22 Awe-inspiring views of high peaks as they have never been seen before, using cutting-edge satellite technology *Mountains* marks a new milestone in Earth observation and Alpine exploration. For the first time, a special recording process and a technique developed at the German Aerospace Center (DLR) allow the satellite recording of three-dimensional views from 300 miles above with a resolution in the range of a few meters. Photorealistic images are created in this manner from perspectives denied even to mountaineers and helicopter pilots. In addition to highly accurate detailed models of individual regions, the DLR generates a global three-dimensional elevation model of Earth in unprecedented quality. For this purpose, two German satellites are currently circling the earth at a speed of more than 15,000 miles per hour—separated by a mere 500 feet. Taken together, both techniques offer a detailed view of a world that still pushes human beings to their limits—the mountainous regions of our planet. For this book Reinhold Messner has selected thirteen peaks and routes to feature, as they’ve never been seen before.

The Theory and Practice of Landscape Painting in Water Colours George Barnard,1855

The Sirens of Mars Sarah Stewart Johnson,2020 Mars was once similar to Earth, but today there are no rivers, no lakes, no oceans. Yet multiple spacecraft are circling Mars, sweeping over Terra Sabaea, Syrtis Major, the dunes of Elysium, and Mare Sirenum-- on the brink, perhaps, of a staggering find. Johnson tells the story of how she and other researchers have scoured Mars for signs of life. She interlaces her journey as a female scientist with tales of other seekers, to offer an unlikely natural history of a place where no human has ever set foot, while providing a vivid portrait of our quest to defy our isolation in the cosmos. -- adapted from jacket

The Summits of Modern Man Peter H. Hansen,2013-05-14 Mountaineering has served as a metaphor for civilization triumphant. A fascinating study of the first ascents of the major Alpine peaks and Mt. Everest, *The Summits of Modern Man* reveals the significance of our encounters with the world's most forbidding heights and how difficult it is to imagine nature in terms other than conquest and domination.

Adventures of Dolly Dingle Paper Dolls Grace G. Drayton,1985-01-01 Thirty-eight dolls and over 50 costumes picture Dolly in Little Red Riding Hood, Hansel and Gretel, La Boheme, H.M.S. Pinafore; plus attire for ice skating, celebrating Halloween, more.

One Little Spark! Marty Sklar,2015-09-01 We've all read about the experts: the artists, the scientists, the engineers—that special group of people known as Imagineers for The Walt Disney Company. But who are they? How did they join the team? What is it like to spend a day in their shoes? Disney Legend Marty Sklar wants to give back to fans and answer these burning questions. When Marty was president of Walt Disney Imagineering, he created a list of principles and ideals for the team, aptly named Mickey's Ten Commandments. Using this code of standards as his organizational flow, Marty provides readers with insights and advice from himself and dozens of hands-on Imagineers from around the globe. It's a true insider's look like no other!

The General Theory of Employment, Interest, and Money John Maynard Keynes,1991

Feeding on Dreams Ariel Dorfman,2012 Dorfman portrays, through visceral scenes and powerful intellect, the personal and political maelstroms underlying his migrations from Buenos Aires, on the run from Pinochet's death squads, to safe houses in Paris and Amsterdam, and eventually to America, his childhood home. The toll on Dorfman's wife and two sons, the 'earthquake of language' that is bilingualism, and his eventual questioning of his allegiance to past and party - all these crucibles of a life in exile are revealed with wry and startling honesty. *Feeding on Dreams* is a passionate reminder that 'we are all exiles', that we are all 'threatened with

annihilation if we do not find and celebrate the refuge of common humanity', as Dorfman did during his 'decades of loss and resurrection'.

Permafrost Soils Rosa Margesin,2008-10-31 Most of the Earth’s biosphere is characterized by low temperatures. Vast areas (>20%) of the soil ecosystem are permanently frozen or are unfrozen for only a few weeks in summer. Permafrost regions occur at high latitudes and also at high ele- tions; a significant part of the global permafrost area is represented by mountains. Permafrost soils are of global interest, since a significant increase in temperature is predicted for polar regions. Global warming will have a great impact on these soils, especially in northern regions, since they contain large amounts of organic carbon and act as carbon sinks, and a temperature increase will result in a release of carbon into the atmosphere. Additionally, the intensified release of the clima- relevant tracer gas methane represents a potential environmental harzard. Significant numbers of viable microorganisms, including bacteria, archaea, p- totrophic cyanobacteria and green algae, fungi and protozoa, are present in per- frost, and the characteristics of these microorganisms reflect the unique and extreme conditions of the permafrost environment. Remarkably, these microorg- isms have been reported to be metabolically active at subzero temperatures, even down to ?20°C.

What It Is Like to Go to War Karl Marlantes,2011-08-30 “A precisely crafted and bracingly honest” memoir of war and its aftershocks from the New York Times–bestselling author of *Matterhorn* (The Atlantic). In 1968, at the age of twenty-three, Karl Marlantes was dropped into the highland jungle of Vietnam, an inexperienced lieutenant in command of forty Marines who would live or die by his decisions. In his thirteen-month tour he saw intense combat, killing the enemy and watching friends die. Marlantes survived, but like many of his brothers in arms, he has spent the last forty years dealing with his experiences. In *What It Is Like to Go to War*, Marlantes takes a candid look at these experiences and critically examines how we might better prepare young soldiers for war. In the past, warriors were prepared for battle by ritual, religion, and literature—which also helped bring them home. While contemplating ancient works from Homer to the Mahabharata, Marlantes writes of the daily contradictions modern warriors are subject to, of being haunted by the face of a young North Vietnamese soldier he killed at close quarters, and of how he finally found a way to make peace with his past. Through it all, he demonstrates just how poorly prepared our nineteen-year-old warriors are for the psychological and spiritual aspects of the journey. In this memoir, the New York Times–bestselling author of *Matterhorn* offers “a well-crafted and forcefully argued work that contains fresh and important insights into what it’s like to be in a war and what it does to the human psyche” (The Washington Post).

Hours of Exercise in the Alps John Tyndall,1872

Close Quarters Larry Heinemann,2010-03-31 From the moment his first novel was published, Larry Heinemann joined the ranks of the great chroniclers of the Vietnam conflict--Philip Caputo, Tim O’Brien, and Gustav Hasford.In the stripped-down, unsullied patois of an ordinary soldier, draftee Philip Dosier tells the story of his war. Straight from high school, too young to vote or buy himself a drink, he enters a world of mud and heat, blood and body counts, ambushes and firefights. It is here that he embarks on the brutal downward path to wisdom that awaits every soldier. In the tradition of *Naked and the Dead* and *The Thin Red Line*, *Close Quarters* is the harrowing story of how a decent kid from Chicago endures an extraordinary trial-- and returns profoundly altered to a world on the threshold of change.
